Memorandum

DEC 23 1993

ERD FRL 14428

Interim Status Tank Storage of Sludge

Steve Keith, Director, ERM, Solar Pond Projects, EG&G

This memorandum transmits a copy of correspondence from the Colorado Department of Health dated December 22, 1993, regarding conditional approval for a change to Interim Status Tank Storage on the 750 Pad (RCRA Unit 25). The letter provides conditional approval for movement and storage of sludges from pond 207-B (south) only, provided five conditions are met.

The DOE requests you evaluate each of the five conditions and provide a scoping-level assessment of the impact to the integrated Accelerated Sludge Removal Project schedule, and the overall Solar Ponds Project budget. This rough assessment is requested no later than December 29, 1993, as coordinated by telephone with Mr Keith so that we can evaluate the tradeoffs to the program and provide guidance back to EG&G by January 3, 1994.

Please direct any questions to me at extension 7846
